Environmental group says states fail to oversee fracking

Pittsburgh Post Gazette

WASHINGTON -- States fail to adequately monitor hydraulic fracturing and use outdated fines that are inadequate to deter violations, an environmental group said Tuesday. Pennsylvania and Ohio each didn't inspect 91 percent of active oil and gas wells

...

Empower States Act ensures development, environmental stewardship

Dickinson Press

The Empower States Act will help to ensure that a state retains the right to manage hydraulic fracturing and gives it the ability to respond first to any violation. Our bill takes a states-first approach because individual states are the first and best ...
